RARITAN TOWNSHIP HUNTERDON COUNTY, NEW JERSEY

HOUSING ELEMENT

INTRODUCTION

The Township of Raritan is located in Hunterdon County. The Township contains 37.5 square miles and is within commuting distance of several major metropolitan areas. Raritan Township is the largest municipality in Hunterdon County by population with 22,103 residents according to the 2017 American Community Survey (ACS) Estimates. Raritan, like the rest of the County, has experienced a slight decrease in population since the 2010 Census, when the population was estimated to be 22,185 residents. This slight population loss is attributed to several factors, including an economic downturn, changing trends in housing locations and types, increased transportation costs, and regulatory restrictions on development.

BACKGROUND

The New Jersey Supreme Court, in Mount Laurel I (1975) and Mount Laurel II (1983), required all New Jersey municipalities to take affirmative actions toward providing their “fair share” of the region’s affordable housing for low- and moderate-income households. In response to the Mount Laurel II decision, the New Jersey Legislature adopted the Fair Housing Act (FHA) in 1985. This act created the Council on Affordable Housing (COAH) to assess the statewide need for affordable housing, allocate that need on a municipal fair share basis, and review and approve municipal housing plans aimed at implementing the local fair share obligation.

Subsequently, the New Jersey Municipal Land Use Law (MLUL) was amended to require a housing element as a mandatory element of the municipal master plan. According to the MLUL, “a municipality’s housing element shall be designed to achieve the goal of access to affordable housing to meet present and prospective housing needs, with particular attention to low- and moderate-income housing (52: 27D-310).”

On October 11, 1995, Raritan Township received its Substantive Certification from COAH for Round 2.

COAH adopted its Third Round Rules in December 2004. Raritan Township petitioned to COAH for Third Round Certification in late 2005. The petition included an updated Housing Element and Fair Share Plan adopted by the Raritan Planning Board in December 2005. On January 25, 2007, the Appellate Division issued a decision on an appeal of COAH’s Third Round Regulations, which required COAH to revise its Third Round Rules and precluded COAH from issuing Third Round Substantive Certifications until the new rules were adopted. As a result, Raritan’s Petition for Substantive Certification was put on hold during the rulemaking process.

On May 6, 2008, COAH adopted new Third Round rules, which became effective on June 2, 2008. At the same time, COAH proposed amendments to those rules. Those amendments were published in the New Jersey Register on June 16, 2008. The amendments were adopted on September 22, 2008, with an additional amendment proposed on the same day. The amended rules were then adopted on

October 20, 2008. As a result of the newly adopted Third Round Substantive Rules, communities petitioning to COAH for the Third Round Substantive Certification were required to submit updated Housing Elements and Fair Share Plans that met the new rules by December 31, 2008.

On November 25, 2008, the Raritan Township Planning Board adopted the Housing Element and Fair Share Plan as part of the Township Master Plan. The Governing Body adopted a resolution to submit the Petition for Substantive Certification of the Housing Element and Fair Share Plan to COAH for Third Round Certification on December 8, 2008.

Raritan received a determination of completeness for its petition for Third Round Substantive Certification on March 30, 2009. Objections were received from three parties, and the mediation report concluded on December 14, 2009. On June 21, 2010, Raritan Township received a COAH compliance report recommending approval of its Petition for Third Round Substantive Certification, and on July 15, 2010, COAH granted Third Round Substantive Certification to Raritan Township.

Following the Township's Substantive Certification, on October 8, 2010, the Appellate Division invalidated COAH's Rules in In re Adoption of N.J.A.C. 5:96 & 5:97 by the New Jersey Council on Affordable Housing, 416 N.J. Super. 462 (App. Div. 2010). The decision stated, among other things, that growth share methodology was invalid, and directed COAH to adopt rules utilizing methodologies similar to those used in the First and Second Round Rules.

On September 26, 2013 the Supreme Court affirmed the Appellate Division's 2010 decision and remanded to COAH to undertake new rulemaking based on COAH's prior round rules and methodologies. COAH failed to formally adopt amended Third Round Rules. The Supreme Court on March 10, 2015 ordered the following:

- a) The Fair Housing Act's exhaustion of administrative remedies requirements is dissolved and the Courts may resume their role as the forum of first resort for evaluating municipal compliance with Mount Laurel obligations.
- b) The effective date of the Order was June 8, 2015.
- c) Municipalities that were under COAH's administrative review were permitted to file Declaratory Judgment motions with the Court by July 8, 2015.

Raritan Township filed a Declaratory Judgment motion with the Superior Court on July 1, 2015. In the motion, the Township sought, among other relief, a judicial determination that the Township's Housing Element and Fair Share Plan, as it may be amended and supplemented, satisfies the Township's fair share of need for low- and moderate-income housing in the region pursuant to Mount Laurel doctrine. The Township Committee passed Resolution 19-156 on June 18, 2019, authorizing a settlement agreement between the Township and Fair Share Housing Center, which established the Township's affordable housing obligation and established the basis for this Housing Element and Fair Share Plan, which follows the Round 2 and Round 3 rules as identified by the Supreme Court in Mount Laurel IV.

CONTENT OF PLAN

The Municipal Land Use Law and the Fair Housing Act both require that the Housing Element and Fair Share Plan include the following:

- An inventory of the municipality's housing stock by age, condition, purchase or rental value, occupancy characteristics, and type, including the number of units affordable to low- and moderate-income households and substandard housing capable of being eliminated;
- A projection of the municipality's housing stock, including the probable future construction of low- and moderate-income housing, for the next ten years, taking into account, but not necessarily limited to, construction permits issued, approvals of applications for development and probable residential development of lands;
- An analysis of the municipality's demographic characteristics, including but not necessarily limited to, household size, income level, and age;
- An analysis of the existing and probable future employment characteristics of the municipality;
- A determination of the municipality's present and prospective fair share for low- and moderate-income housing and its capacity to accommodate its present and prospective housing needs, including its fair share for low- and moderate-income housing; and
- A consideration of the lands that are most appropriate for construction of low- and moderate-income housing and of the existing structures most appropriate for conversion to, or rehabilitation for, low- and moderate-income housing, including a consideration of lands of developers who have expressed a commitment to provide low- and moderate-income housing.

PURPOSE AND GOALS

The purpose of this Housing Element and Fair Share Plan is to provide a realistic opportunity to address the housing needs of Raritan residents across all income levels. This plan proposes multiple opportunities to develop a variety of housing types to meet these needs, which can be integrated into the existing land use pattern and character of the Township.

This Housing Element and Fair Share Plan supports the goals of the Township's 2015 Master Plan, specifically the following:

1. Support a diverse mix of housing that offers a wide range of choice in terms of value, type, and location;
2. Seek quality housing design that provides adequate light, air, and open space;
3. To the extent feasible, guide new residential development into areas with sufficient capacity to support them and without environmental constraints;
4. Provide a realistic opportunity for the provision of the municipal share of the region's present and prospective needs for housing for low- and moderate-income families;
5. Maximize the efficient use of existing infrastructure, through such means as redevelopment, infill, and adaptive reuse;
6. To the extent feasible, incorporate affordable housing units into new residential construction that occurs within the Township, including any mixed use, redevelopment, and /or adaptive reuse projects;
7. Preserve and monitor existing stocks of affordable housing; and
8. Reduce long term housing costs through the implementation of green building and energy efficient technology in the rehabilitation, redevelopment, and development of housing.

This Plan has been prepared to meet the requirements of the Municipal Land Use Law (MLUL), Fair Housing Act (FHA), the New Jersey State Development and Redevelopment Plan (SDRP), and the recent Court rulings regarding the substantive rules of the Council on Affordable Housing (COAH).

DEMOGRAPHIC ANALYSIS

Population

Raritan Township is a rural and suburban community of approximately 38.6 square miles located in Hunterdon County. According to the 2017 American Community Survey (ACS), Raritan had a population of 22,103 residents and a density of 573 persons per square mile. This represents a slight decrease from the 2010 Census when the population was estimated to be 22,185 residents. This mirrors a larger trend of population loss in Hunterdon County as a whole in the period between 2013 and 2017.

Sex and Age

The median age of residents in Raritan Township is 44.8 years. This is slightly lower than Hunterdon County (45.9 years), but older than the State median age of 39.6 years.

The largest age cohort includes residents between the ages of 45-54 (19%), followed by those aged 35 to 44 years (12.6%). The third highest cohorts include individuals who fall between 55 to 59 years and 10 to 14 years (8.9%, respectively). This hints towards the suburban community pattern of the Township.

There is a roughly even distribution of male (47.5%) and female (52.5%) residents in Raritan Township. However, among senior adults 65 years and older, there are significantly more women than men. These differences in gender may be useful when planning for adult and/or age-restricted communities.

However, the unemployment rate alone does not provide a full picture of Township employment levels.

The data table above illustrates employment characteristics for Raritan residents for the most recent year of data available (2017), as measured by the 2017 ACS. As was noted in the "Income" section above, the median income for an individual worker in 2017 was \$120,644, according to these same estimates.

The average value of an owner-occupied dwelling in Raritan was estimated at \$422,800 in 2017, and approximately 45.5 percent were valued at between \$300,000 to \$499,999. The other half of the Township's housing stock was distributed between homes valued at \$500,000 or more (30.8% of homes) and those valued at less than \$300,000 (23.5% of homes).

Selected Housing Characteristics

As of 2017, the vast majority of housing units in Raritan Township (67.5%) are single-family detached homes, while 20.5% are attached multifamily housing. In addition, the table below shows that the highest number of units was built during the period between 1980 and 1989 (35.7%).

To understand how these housing values translate into affordability, it is important to look at the "selected monthly owner costs" (SMOC). This is defined as the sum of payments for mortgages, real estate taxes, various insurances, utilities, fuels, mobile home costs, and condominium fees. The median SMOC for owner-occupied homes with a mortgage was \$2,870 in 2017. This number was significantly lower for owner-occupied homes with no mortgage at and \$1049.

PROJECTION OF FUTURE HOUSING STOCK

In order to project the future housing stock in Raritan Township, it is important to look at recent trends in housing construction for the municipality. As one can see the amount of mixed use and multifamily certificate of occupancy has gone up substantially in 2017.

FAIR SHARE PLAN

INTRODUCTION

This plan uses the methodology for determining a municipality's affordable housing obligation identified in the Second Round and Third Round Rules, as determined by the Supreme Court, and relies on the most recent housing and socioeconomic data available.

PLAN PURPOSE AND GOALS

This Fair Share Plan will describe specific projects, programs, strategies and funding sources to meet the Township's affordable housing obligation, while also complying with COAH's Second and Third Round Rules for Substantive Certification and the Fair Housing Act. The overriding goal of this Fair Share Plan is to provide a framework for the Township to take affirmative steps toward providing a realistic opportunity to achieve its fair share of the present and prospective regional need for low- and moderate-income housing.

DETERMINATION OF HOUSING NEED

The Township of Raritan agreed to a Third Round Calculated Need obligation of **395 units**. This number is derived from the Econsult report entitled New Jersey Affordable Housing Need and Obligations, dated June 14, 2019, which extrapolated from the Hon. Mary C. Jacobson, A.J.S.C., decision on March 8, 2018, which established a Third Round Prospective Need and Gap Period Need for the Township of 857 units. Because the Township already has 462 credits, bonuses, and reductions toward the Third Round which were implemented prior to July 1, 2015, the remaining calculated need is 395. Therefore, the affordable housing obligation by category for Raritan is as follows:

Rehabilitation Share (Present Need)	16
Prior Round Obligation (1987-1999)	360
Third Round (1999-2025) Calculated Need	395

PRESENT NEED

The Township has a present need of 16 units, which will be completed through the Township's rehabilitation program. The program is funded through the Township's Affordable Housing Trust Fund.

PRIOR ROUND

Raritan Township received Substantive Certification from COAH for Round 2 on October 11, 1995. At the time of Certification, the Township's obligation was for 426 units; subsequent amendments reduced the Prior Round obligation to 360 units. In the recent numbers, the Township's Prior Round obligation is **360 units**. The Township met its obligation as follows:

Credits without Controls

The Fair Housing Act of 1985 states that municipalities are entitled to a one-for-one credit for privately-built housing that meets certain criteria. This allows the Township to receive credits towards its affordable housing obligations utilizing existing units that are affordable but may not be deed restricted within the Township. Housing that received a Certificate of Occupancy (CO) between April 1, 1980 and December 25, 1986 and are currently affordable to low- and moderate-income people in the region are eligible. The Township is focusing on two developments with units constructed during this timeframe: Flemington South and Village Commons. Flemington South has 267 units. The Village Commons has 159 units, although some were built after 1986. The Township will implement a program to compile voluntary income surveys for residents of the eligible units. The Township is projecting that at least 27 units will be verified.

RCAs with New Brunswick and Lambertville

Raritan Township is proposing to apply 57 Regional Contribution Agreement (“RCAs”) credits to the Prior Round from a total of 144 credits. The Township entered into RCAs with New Brunswick and Lambertville during 1996 and 2003. An RCA, pursuant to N.J.S.A. 52:27D-312, is the transfer of up to 50 percent of a municipality’s fair share obligation to another municipality within its housing region by means of a contractual agreement into which two municipalities voluntarily enter. The Township completed RCAs for a total of 124 units in New Brunswick and 20 units in Lambertville. However, the purchase of RCAs is no longer a valid affordable housing crediting mechanism by the Third Round affordable housing regulations and therefore Raritan is permitted to keep its existing RCA unit credits, but cannot seek more.

Flemington South Gardens

Flemington South Gardens includes 96 age-restricted one-bedroom and efficiency rental units that were completed between 1988 and 1990. Flemington South Gardens is located at 30 and 63 Manchester Road (Block 71.16, Lot 51 and Block 71.17, Lot 1).

RARITAN TOWNSHIP
CLERKS OFFICE

Re: In the Matter of the Township of Raritan, County of Hunterdon,
Docket No. HNT-L-312-15

Dear Mr. Purcell:

This letter memorializes the terms of an agreement reached between the Township of Raritan (the Township or "Raritan"), the declaratory judgment plaintiff, and Fair Share Housing Center (FSHC), a Supreme Court-designated interested party in this matter in accordance with In re N.J.A.C. 5:96 and 5:97, 221 N.J. 1, 30 (2015)(Mount Laurel IV) and, through this settlement, a defendant in this proceeding.

Background

Raritan filed the above-captioned matter on July 1, 2015 seeking a declaration of its compliance with the Mount Laurel doctrine and Fair Housing Act of 1985, N.J.S.A. 52:27D-301 et seq. in accordance with In re N.J.A.C. 5:96 and 5:97, *supra*. Through the declaratory judgment process, the Township and FSHC agreed to settle the litigation and to present that settlement to the trial court with jurisdiction over this matter to review, recognizing that the settlement of Mount Laurel litigation is favored because it avoids delays and the expense of trial and results more quickly in the construction of homes for lower-income households.

Settlement terms

The Township and FSHC hereby agree to the following terms:

1. FSHC agrees that the Township, through the adoption of a Housing Element and Fair Share Plan conforming with the terms of this Agreement (hereafter "the Plan") and through the implementation of the Plan and this Agreement, satisfies its obligations under the Mount Laurel doctrine and Fair Housing Act of 1985, N.J.S.A. 52:27D-301 et seq., for the Prior Round (1987-1999) and Third Round (1999-2025).
2. At this time and at this particular point in the process resulting from the Supreme Court's Mount Laurel IV decision, when Third Round fair share obligations have yet to be definitively determined, it is appropriate for the parties to arrive at a settlement regarding a municipality's Third Round present and prospective need instead of doing so through plenary adjudication of the present and prospective need.
3. FSHC and Raritan hereby agree that Raritan's affordable housing obligations are as follows:

{A1131148.1}

Rehabilitation Share (per Kinsey Report ¹)	16
Prior Round Obligation (pursuant to N.J.A.C. 5:93)	360
Third Round (1999-2025) Calculated Need (per Kinsey Report, as adjusted through this Agreement) ²	396

4. For purposes of this Agreement, the Third Round Calculated Need shall be deemed to be the Third Round Prospective Need as adjusted for credits, reductions, and bonuses as further detailed below and in accordance with N.J.A.C. 5:93-2.17. The Third Round Prospective Need shall be deemed to include the Gap Period Present Need, which is a measure of households formed from 1999-2015 that need affordable housing, that was recognized by the Supreme Court in In re Declaratory Judgment Actions Filed By Various Municipalities, 227 N.J. 508 (2017). FSHC and the Township agree that while the Township does not accept the basis of the methodology or calculations proffered by FHSC's consultant, David H. Kinsey, Ph.D., P.P. F.A.I.C.P., the Parties agree to the terms of this agreement for purposes of settlement of this action.
5. The Township's efforts to meet its present need include a municipally sponsored local rehabilitation program. This is sufficient to satisfy the Township's present need obligation of 16 units.
6. As noted above, the Township has a Prior Round prospective need of 360 units, which is met through the following compliance mechanisms:

Prior Round Obligation	Type	Units	Bonus Credits	Total Credits
<i>Prior Cycle Credits</i>		68	33	101

7. The Township implemented the following credits, bonuses, and reductions prior to July 1, 2015.

8. The Township will implement mechanisms to address its calculated need as described in this paragraph. The calculated need is derived as follows. The parties agree for the purposes of settlement to use as the total Third Round Prospective Need and Gap Period Need the number that multiple experts have extrapolated the methodology that the Hon. Mary C. Jacobson, A.J.S.C. utilized in her decision issued on March 8, 2018 and found that methodology, if applied to Hunterdon County, would have resulted in the Township's Round 3 obligation being 857. Neither party accepts the basis of the methodology or calculations made in the decision, though FSHC contends, and is free to take the position before the Court, that such an obligation reflects a reasonable reduction of Dr. Kinsey's July 2016 and April 2017 calculation of the Township's Round 3 (1999-2025) fair share obligation in the context of settlement, and that obligation is based on the Prior Round methodology. Because the Township already has 461 credits, bonuses, and reductions implemented prior to July 1, 2015 pursuant to paragraph 7, the calculated need is 396, which shall be addressed as follows:

Mechanisms to Satisfy Calculated Need	Type	Units	Bonus Credits	Total Credits
Cedar Grove Shopping Center	Family Rental	6		6
66 Junction Road	Municipally Sponsored 100% Affordable Family Rental	100		100
Villages at Raritan Junction	Inclusionary Development – Family Rental	28	28	56

Total Units		278	118	396

9. The Township will provide a realistic opportunity for the development of affordable housing through the adoption of inclusionary zoning on the following sites:

The Township has already adopted inclusionary zoning on the Cedar Grove Shopping Center, Villages at Raritan Junction, Enclave at Raritan Junction, Raritan Junction, and Raritan Town Square sites. All other Inclusionary sites listed in paragraphs 6 through 8 are already constructed.

10. The Township will provide a realistic opportunity for the development of additional affordable housing that will be developed or created through means other than inclusionary zoning in the following ways:

- **Extensions of Expiring Controls:** The Township will be extending controls on twenty-one (21) units with expiring controls from the Stonegate and South Main Village developments. Prior to the final compliance hearing in this matter the Township will provide confirmation that the controls have been extended for at least thirty years from the original date the controls were to expire.

- **Group Home/Supportive Housing Program:** By December 31 of each year from 2020 through 2024, the Township will partner with supportive and special needs housing providers to create a minimum of seven special needs bedrooms per year (in the first two years) and six special needs bedrooms per year (in the remaining three years).

- **66 Junction Road:** 66 Junction Road is a 100% affordable family rental site that is replacing the Dayton Road 100% affordable family rental site that was part of the Township's Third Round substantive certification. The Township as part of the compliance phase of this litigation will transfer the sewer allocation that was allocated for

construction of Dayton Road to 66 Junction Road to make construction of this site possible.

In accordance with N.J.A.C. 5:93-5.5, the Township recognizes that it must provide evidence that the municipality has adequate and stable funding for any non-inclusionary affordable housing developments. The municipality is required to provide a pro forma of both total development costs and sources of funds and documentation of the funding available to the municipality and/or project sponsor, and any applications still pending. In the case where an application for outside funding is still pending, the municipality shall provide a stable alternative source, such as municipal bonding, in the event that the funding request is not approved. The Township will provide a pro forma and documentation for 66 Junction Road as part of its Housing Element and Fair Share Plan, show any necessary spending for all of the programs referenced in this paragraph as part of its Spending Plan, and pass a resolution of intent to bond in case of a shortfall in accordance with N.J.A.C. 5:93-5.5.

In accordance with N.J.A.C. 5:93-5.5, for non-inclusionary developments, a construction or implementation schedule, or timetable, shall be submitted for each step in the development process: including preparation of a site plan, granting of municipal approvals, applications for State and Federal permits, selection of a contractor and construction. The schedule shall provide for construction to begin within two years of court approval of this settlement. The municipality shall indicate the entity responsible for undertaking and monitoring the construction and overall development activity. The Township will provide this information for the 66 Junction Road site as part of its Housing Element and Fair Share Plan.

11. The Township agrees to require 13% of all units referenced in this Agreement, excepting those units that were constructed or granted preliminary or final site plan approval prior to July 1, 2008, to be very low income units, with half of the very low income units being available to families. The municipality will demonstrate how it will comply with these requirements as part of its Housing Element and Fair Share Plan.
12. The Township shall meet its Third Round Prospective Need in accordance with the following standards as agreed to by the Parties and reflected in the table in paragraph 6 above:
 - a. Third Round bonuses will be applied in accordance with N.J.A.C. 5:93-5.15(d).
 - b. At least 50 percent of the units addressing the Third Round Prospective Need shall be affordable to very-low-income and low-income households with the remainder affordable to moderate-income households.
 - c. At least twenty-five percent of the Third Round Prospective Need shall be met through rental units, including at least half in rental units available to families.
 - d. At least half of the units addressing the Third Round Prospective Need in total must be available to families.

- e. The Township agrees to comply with an age-restricted cap of 25% and to not request a waiver of that requirement. This shall be understood to mean that in no circumstance may the municipality claim credit toward its fair share obligation for age-restricted units that exceed 25% of all units developed or planned to meet its cumulative prior round and third round fair share obligation.
13. The Township shall add to the list of community and regional organizations in its affirmative marketing plan, pursuant to N.J.A.C. 5:80-26.15(f)(5), Fair Share Housing Center, the New Jersey State Conference of the NAACP, the Latino Action Network, NORWESCAP, the Supportive Housing Association, and the Central Jersey Housing Resource Center, and shall, as part of its regional affirmative marketing strategies during its implementation of the affirmative marketing plan, provide notice to those organizations of all available affordable housing units. The Township also agrees to require any other entities, including developers or persons or companies retained to do affirmative marketing, to comply with this paragraph.
14. All units shall include the required bedroom distribution, be governed by controls on affordability and affirmatively marketed in conformance with the Uniform Housing Affordability Controls (UHAC), N.J.A.C. 5:80-26.1 et. seq. or any successor regulation, with the exception that in lieu of 10 percent of affordable units in rental projects being required to be at 35 percent of median income, 13 percent of affordable units in such projects shall be required to be at 30 percent of median income, and all other applicable law. The 66 Junction Road site shall be at least 13 percent very low income as part of at least 50 percent low income units and meet the bedroom distribution requirements in UHAC (i.e. N.J.A.C. 5:80-26.3). The Township as part of its HEFSP shall adopt and/or update appropriate implementing ordinances in conformance with standard ordinances and guidelines developed by COAH to ensure that this provision is satisfied. Income limits for all units that are part of the Plan required by this Agreement and for which income limits are not already established through a federal program exempted from the Uniform Housing Affordability Controls pursuant to N.J.A.C. 5:80-26.1 shall be updated by the Township annually within 30 days of the publication of determinations of median income by HUD as follows:
- a. Regional income limits shall be established for the region that the Township is located within (i.e. Region 3) based on the median income by household size, which shall be established by a regional weighted average of the uncapped Section 8 income limits published by HUD. To compute this regional income limit, the HUD determination of median county income for a family of four is multiplied by the estimated households within the county according to the most recent decennial Census. The resulting product for each county within the housing region is summed. The sum is divided by the estimated total households from the most recent decennial Census in the Township's housing region. This quotient represents the regional weighted average of median income for a household of four. The income limit for a moderate-income unit for a household of four shall be 80 percent of the regional weighted average median income for a family of four. The income limit for a low-income unit for a household of four shall be 50 percent of the HUD determination of the regional weighted average median income for a family of four. The income limit for a very low income unit for a household of four shall be 30 percent of the regional weighted average median income for a family of four. These income limits shall be adjusted by household size based on multipliers used by HUD to adjust median income by household size. In no event shall the income limits be less than those for the previous year.

- b. The income limits attached hereto as Exhibit A are the result of applying the percentages set forth in paragraph (a) above to HUD's determination of median income for FY 2019, and shall be utilized until the Township updates the income limits after HUD has published revised determinations of median income for the next fiscal year.
 - c. The Regional Asset Limit used in determining an applicant's eligibility for affordable housing pursuant to N.J.A.C. 5:80-26.16(b)3 shall be calculated by the Township annually by taking the percentage increase of the income limits calculated pursuant to paragraph (a) above over the previous year's income limits, and applying the same percentage increase to the Regional Asset Limit from the prior year. In no event shall the Regional Asset Limit be less than that for the previous year.
 - d. The parties agree to request the Court prior to or at the fairness hearing in this matter to enter an order implementing this paragraph of this Agreement.
15. All new construction units shall be adaptable in conformance with P.L.2005, c.350/N.J.S.A. 52:27D-311a and -311b and all other applicable law.
16. As an essential term of this Agreement, within one hundred and twenty (120) days of Court's approval of this Agreement, the Township shall introduce and adopt an ordinance or ordinances providing for the amendment of the Township's Affordable Housing Ordinance and Zoning Ordinance to implement the terms of this Agreement and the zoning contemplated herein and adopt a Housing Element and Fair Share Plan and Spending Plan in conformance with the terms of this Agreement.
17. The parties agree that if a decision of a court of competent jurisdiction in Hunterdon County, or a determination by an administrative agency responsible for implementing the Fair Housing Act, or an action by the New Jersey Legislature, would result in a calculation of an obligation for the Township for the period 1999-2025 that would be lower by more than twenty (20%) percent than the total prospective Third Round need obligation established in this Agreement, and if that calculation is memorialized in an unappealable final judgment, the Township may seek to amend the judgment in this matter to reduce its fair share obligation accordingly. Notwithstanding any such reduction, the Township shall be obligated to adopt a Housing Element and Fair Share Plan that conforms to the terms of this Agreement and to implement all compliance mechanisms included in this Agreement, including by adopting or leaving in place any site specific zoning adopted or relied upon in connection with the Plan adopted pursuant to this Agreement; taking all steps necessary to support the development of any 100% affordable developments referenced herein; maintaining all mechanisms to address unmet need; and otherwise fulfilling fully the fair share obligations as established herein. The reduction of the Township's obligation below that established in this Agreement does not provide a basis for seeking leave to amend this Agreement or seeking leave to amend an order or judgment pursuant to R. 4:50-1. If the Township prevails in reducing its prospective need for the Third Round, the Township may carry over any resulting extra credits to future rounds in conformance with the then-applicable law.
18. The Township shall prepare a Spending Plan within the period referenced above, subject to the review of FSHC and approval of the Court, and reserves the right to seek approval from the Court that the expenditures of funds contemplated under the Spending Plan constitute "commitment" for expenditure pursuant to N.J.S.A. 52:27D-329.2 and -329.3, with the four-year time period for expenditure designated pursuant to those

provisions beginning to run with the entry of a final judgment approving this settlement in accordance with the provisions of In re Tp. Of Monroe, 442 N.J. Super. 565 (Law Div. 2015) (aff'd 442 N.J. Super. 563). On the first anniversary of the execution of this Agreement, which shall be established by the date on which it is executed by a representative of the Township, and on every anniversary of that date thereafter through the end of the period of protection from litigation referenced in this Agreement, the Township agrees to provide annual reporting of trust fund activity to the New Jersey Department of Community Affairs, Council on Affordable Housing, or Local Government Services, or other entity designated by the State of New Jersey, with a copy provided to Fair Share Housing Center and posted on the municipal website, using forms developed for this purpose by the New Jersey Department of Community Affairs, Council on Affordable Housing, or Local Government Services. The reporting shall include an accounting of all housing trust fund activity, including the source and amount of funds collected and the amount and purpose for which any funds have been expended.

19. On the first anniversary of the execution of this Agreement, and every anniversary thereafter through the end of this Agreement, the Township agrees to provide annual reporting of the status of all affordable housing activity within the municipality through posting on the municipal website with a copy of such posting provided to Fair Share Housing Center, using forms previously developed for this purpose by the Council on Affordable Housing or any other forms endorsed by the Special Master and FSHC.
20. The Fair Housing Act includes two provisions regarding action to be taken by the Township during the ten-year period of protection provided in this Agreement. The Township agrees to comply with those provisions as follows:
 - a. For the midpoint realistic opportunity review due on July 1, 2020, as required pursuant to N.J.S.A. 52:27D-313, the Township will post on its municipal website, with a copy provided to Fair Share Housing Center, a status report as to its implementation of the Plan and an analysis of whether any unbuilt sites or unfulfilled mechanisms continue to present a realistic opportunity and whether any mechanisms to meet unmet need should be revised or supplemented. Such posting shall invite any interested party to submit comments to the municipality, with a copy to Fair Share Housing Center, regarding whether any sites no longer present a realistic opportunity and should be replaced and whether any mechanisms to meet unmet need should be revised or supplemented. Any interested party may by motion request a hearing before the court regarding these issues.
 - b. For the review of very low income housing requirements required by N.J.S.A. 52:27D-329.1, within 30 days of the third anniversary of this Agreement, and every third year thereafter, the Township will post on its municipal website, with a copy provided to Fair Share Housing Center, a status report as to its satisfaction of its very low income requirements, including the family very low income requirements referenced herein. Such posting shall invite any interested party to submit comments to the municipality and Fair Share Housing Center on the issue of whether the municipality has complied with its very low income housing obligation under the terms of this settlement.
21. FSHC is hereby deemed to have party status in this matter and to have intervened in this matter as a defendant without the need to file a motion to intervene or an answer or other pleading. The parties to this Agreement agree to request the Court to enter an

order declaring FSHC is an intervenor, but the absence of such an order shall not impact FSHC's rights.

22. This Agreement must be approved by the Court following a fairness hearing as required by Morris Cty. Fair Hous. Council v. Boonton Twp., 197 N.J. Super. 359, 367-69 (Law Div. 1984), aff'd o.b., 209 N.J. Super. 108 (App. Div. 1986); East/West Venture v. Borough of Fort Lee, 286 N.J. Super. 311, 328-29 (App. Div. 1996). The Township shall present its planner as a witness at this hearing. FSHC agrees to support this Agreement at the fairness hearing. In the event the Court approves this proposed settlement, the parties contemplate the municipality will receive "the judicial equivalent of substantive certification and accompanying protection as provided under the FHA," as addressed in the Supreme Court's decision in In re N.J.A.C. 5:96 & 5:97, 221 N.J. 1, 36 (2015). The "accompanying protection" shall remain in effect through July 1, 2025. If this Agreement is rejected by the Court at a fairness hearing it shall be null and void.
23. The Township agrees to pay FSHC's attorneys fees and costs in the amount of \$15,000 within ten (10) days of the Court's approval of this Agreement pursuant to a duly-noticed fairness hearing. The Township is permitted to seek recovery of these attorneys fees and costs from developers within the Township's affordable housing plan on a pro-rata basis.
24. If an appeal is filed of the Court's approval or rejection of this Agreement, the Parties agree to defend the Agreement on appeal, including in proceedings before the Superior Court, Appellate Division and New Jersey Supreme Court, and to continue to implement the terms of this Agreement if the Agreement is approved before the trial court unless and until an appeal of the trial court's approval is successful, at which point the Parties reserve their right to rescind any action taken in anticipation of the trial court's approval. All Parties shall have an obligation to fulfill the intent and purpose of this Agreement.
25. This Agreement may be enforced through a motion to enforce litigant's rights or a separate action filed in Superior Court, Hunterdon County. A prevailing movant or plaintiff in such a motion or separate action shall be entitled to reasonable attorney's fees.
26. Unless otherwise specified, it is intended that the provisions of this Agreement are to be severable. The validity of any article, section, clause or provision of this Agreement shall not affect the validity of the remaining articles, sections, clauses or provisions hereof. If any section of this Agreement shall be adjudged by a court to be invalid, illegal, or unenforceable in any respect, such determination shall not affect the remaining sections.
27. This Agreement shall be governed by and construed by the laws of the State of New Jersey.
28. This Agreement may not be modified, amended or altered in any way except by a writing signed by each of the Parties.
29. This Agreement may be executed in any number of counterparts, each of which shall be an original and all of which together shall constitute but one and the same Agreement.
30. The Parties acknowledge that each has entered into this Agreement on its own volition without coercion or duress after consulting with its counsel, that each party is the proper

person and possess the authority to sign the Agreement, that this Agreement contains the entire understanding of the Parties and that there are no representations, warranties, covenants or undertakings other than those expressly set forth herein.

31. Each of the Parties hereto acknowledges that this Agreement was not drafted by any one of the Parties, but was drafted, negotiated and reviewed by all Parties and, therefore, the presumption of resolving ambiguities against the drafter shall not apply. Each of the Parties expressly represents to the other Parties that: (i) it has been represented by counsel in connection with negotiating the terms of this Agreement; and (ii) it has conferred due authority for execution of this Agreement upon the persons executing it.
32. Any and all Exhibits and Schedules annexed to this Agreement are hereby made a part of this Agreement by this reference thereto. Any and all Exhibits and Schedules now and/or in the future are hereby made or will be made a part of this Agreement with prior written approval of both Parties.
33. This Agreement constitutes the entire Agreement between the Parties hereto and supersedes all prior oral and written agreements between the Parties with respect to the subject matter hereof except as otherwise provided herein.
34. No member, official or employee of the Township shall have any direct or indirect interest in this Agreement, nor participate in any decision relating to the Agreement which is prohibited by law, absent the need to invoke the rule of necessity.
35. Anything herein contained to the contrary notwithstanding, the effective date of this Agreement shall be the date upon which all of the Parties hereto have executed and delivered this Agreement.
36. All notices required under this Agreement ("Notice[s]") shall be written and shall be served upon the respective Parties by certified mail, return receipt requested, or by a recognized overnight or by a personal carrier. In addition, where feasible (for example, transmittals of less than fifty pages) shall be served by facsimile or e-mail. All Notices shall be deemed received upon the date of delivery. ** This column is used for calculating the pricing for rent increases for units (as previously calculated under N.J.A.C. 5:97-9.3). The increase for 2015 was 2.3%, the increase for 2016 was 1.1%, the increase for 2017 was 1.7%, and the increase for 2018 was 2.2%. The increase for 2019 is 2.6% (Consumer price Index for All Urban Consumers (CPI-U): Regions by expenditure category and commodity and service group). Landlords who did not increase rents in 2015, 2016, 2017, or 2018 may increase rent by up to the applicable combined percentage including 2019 or 9.0% whichever is less in accordance with N.J.A.C. 5:97-9.3(c). In no case can rent for any particular apartment be increased more than one time per year.

*** This column is used for calculating the pricing for resale increases for units (as previously calculated under N.J.A.C. 5:97-9.3). The price of owner-occupied low and moderate income units may increase annually based on the percentage increase in the regional median income limit for each housing region. In no event shall the maximum resale price established by the administrative agent be lower than the last recorded purchase price.

Low income tax credit developments may increase based on the low income tax credit regulations.

INTRODUCTION

The South Junction Road Redevelopment Plan (the "Plan") governs the Non-Condemnation Area in Need of Redevelopment designated by a resolution adopted by the Governing Body of the Township of Raritan on June 18, 2019, pursuant to the Local Redevelopment and Housing Law, N.J.S.A. 40A:12A-1 et seq. (the "Redevelopment Law"), including Block 27, Lot 22 (the "Plan Area"). This Plan is proposed to achieve the redevelopment of the Area, shown below.

South Junction Road Redevelopment Area Map

PLAN CONTEXT

The Plan Area occupies approximately 7.7 acres and includes one tax lot, Lot 22, Block 27, bounded by Walter E Foran Boulevard (Junction Road) to the north, residential parcels, farmland and a solar farm to the east and residential uses and Junction Road to the west. The existing uses in the Plan Area primarily consist of a former chicken farm, three family residential structure and a landscaping business. The primary goal of the Plan is to provide for 100 percent affordable housing in an underutilized area that is currently zoned for industrial uses. This Plan complements the large commercial stores located in close proximity to the Plan Area on Junction Road by increasing the residential density in the area. The Plan also is consistent with a similar development across Junction Road to the north, on Justin Court, known as the Willows at Flemington Junction.

The Plan area is currently zoned I-2 Major Industrial. The area surrounding the Plan Area is generally residential and undeveloped land. These uses are non-conforming under the current industrial zoning.

PURPOSE

This Plan is designed to serve as the zoning for the Plan Area, to provide guidelines for new construction in the Plan Area and establish permitted land uses and building requirements for the Area. The Plan calls for affordable housing that will enhance this underutilized section of the Township and will provide affordable housing in an area that is accessible to employment. Junction Road should be developed with an inviting streetscape, including buildings and/or other elements to create an engaging public realm. The Plan is designed to encourage the integration of building, parking, landscape, and signage elements in order to improve the appearance of the streetscape to support the specific goals and policy statements set forth in the Township Master Plan.

PLAN CONSISTENCY REVIEW

Township Master Plan Consistency

The Redevelopment Law requires that the Plan define the plan's relationship to local master plan goals and objectives such as appropriate land uses, population densities, improvements to traffic, public utilities, recreational and community facilities, and other improvements. The Redevelopment Law also requires that the Plan be substantially consistent with the municipal master plan or designed to effectuate the master plan.

The Township's most recent Master Plan Reexamination Report was adopted on February 27, 2019. In the Township's Housing Element and Fair Share Plan, affordable housing is identified as an appropriate use in the Raritan Junction area and notes the potential residential uses in the nearby Raritan Junction Redevelopment Area. Given the location adjacent to employment centers and its accessibility to transit options, the Master Plan recommended an overlay zone permitting the development of 100% affordable housing in compliance with state guidelines for production and administration of affordable units. Any such development must be serviced by public sanitary sewer and public water.

The South Junction Road Redevelopment Area is located within a half-mile of Raritan Junction Development, a large mixed-use commercial development in the Township. Redevelopment of the Plan Area will enhance the adjacent development and will offer needed services to the residents. This Plan is consistent with these goals and objectives of the Township's Master Plan.

Local, Regional, and State Plan Consistency

The relationship of the Plan with surrounding communities' master plans is also reviewed to determine whether any significant relationship exists. Its relationship to the Hunterdon County Master Plan and State Development and Redevelopment Plan must also be reviewed.

Raritan Township is surrounded by Franklin Township, Hunterdon County to the northwest, Readington Township, Hunterdon County to the northeast, Hillsborough Township, Somerset County to the east, East Amwell Township, Hunterdon County to the southeast and Delaware Township, Hunterdon County to the southwest. The Borough of Flemington is located in the approximate center of the Township. The Plan Area is in the central eastern section of the Township, west of Flemington Borough and east of Readington Township.

The Plan is consistent with the goals and objectives of the Borough of Flemington. The Borough's 2015 Master Plan proposes to expand Affordable housing by encouraging multifamily projects. This is to ensure that the Borough continues to meet its constitutionally-mandated affordable housing obligation and to ensure that the Borough continues to provide housing for a diversity of households. The Township of Readington is working to amend land use and zoning regulations to facilitate the implementation of fair share housing and affordable housing. With regard to other nearby municipalities, the Plan Area does

not create any potential issues or significant relationships with master plans in other surrounding municipalities.

The Hunterdon County Growth Management Plan outlines guidelines for development. The Plan highlights the following objectives relevant to the Redevelopment Area: "Create locally accessible high-density areas for one-stop shopping" and "Direct development away from areas targeted for preservation." This Plan is consistent with the Hunterdon County Growth Management Plan because the Plan provides for consolidated development along established transportation corridors with existing development.

The State Development and Redevelopment Plan (SDRP) designates this portion of Raritan Township as a Fringe Planning Area (PA3). The proposed Plan is consistent with SDRP goals for PA3. The SDRP outlines goals which should guide local planning efforts. Within Goal #1: Revitalize the state's cities and towns, the Plan states that municipalities should, "build on the assets of cities and towns such as their labor force, available land and buildings, strategic location, and diverse populations" and "leverage private investments in jobs and housing." By concentrating development within an already developed area, the Plan also aligns with Goal #2: Conserve the State's Natural Resources and Systems, which recommends, "Promoting ecologically sound development and redevelopment and accommodating Environmentally designated development and redevelopment." The Plan is also consistent with Goal #3, Promote beneficial economic growth, development, and renewal for all residents of New Jersey. The Plan states that municipalities should, "expand businesses and encourage new, environmentally sustainable businesses in Centers and areas with infrastructure." This Plan is consistent with the SDRP.

- A. All landscaping must have a two-year maintenance guarantee. If any planting material dies within two years of planting, it must be replaced the following planting season.
- B. Tree and shrub replacement. A limit of disturbance line shall be established during the review of an application for development taking into account grading, utility placement, and anticipated construction activities. Within the area encompassed by the limit of disturbance, there shall be no requirement for the replacement of trees. - D. Landscaping should be used to accept and complement buildings and provide for climate control.
- E. Landscaping. The protection of wooded areas, specimen trees, and existing vegetation suitable for landscaping within the redevelopment shall be a factor in determining the location of open space, buildings, underground services, paved areas, playgrounds, parking areas.

Mobility Regulations

Thoroughfares are an important aspect of public space. Streets and their surrounding development form our primary sense of place. The design of the Plan Area plays a key role in forming this sense of place for the neighborhood and the nearby central business district.

A. Streets and automobile circulation

1. The primary automobile access points should be from driveways on Walter E Foran Blvd.
2. Appropriate traffic control signs must be installed to ensure the safe flow of traffic into and through the redeveloped area.
3. New developments need to provide more to the traffic network than just access to their site.
4. Streets, roads, and automobile circulation shall comply with RSIS.
5. Sidewalks shall comply with RSIS.

Building Design Standards

Building design should meet, to the maximum extent practicable, the requirements of Section 16.20.040 (Design Standards) of the Township Ordinance. In the event of a conflict between Section 16.20.040 and the Plan, the Plan shall control. The following sections in Section 16.20.040 (Design Standards) shall not apply to development of the Plan Area:

- B(3)(b) Within the Plan Area, Garden apartment structures should be grouped in clusters with architectural design consistence in each cluster. Each unit shall only be required to have one means of access. A minimum of two-foot building offset should be provided at least every 40 feet.
- B(3)(c) Recreation facilities shall be setback at least 25 feet from the property line.

The sign package should include design elements such as size, materials, style, and illumination. Signage standards for the Plan are regulated by Section 16.20.040 (H), except that signs are permitted to have internal lighting on the sign.

Submittal Requirements The Redeveloper(s) will submit a site plan for all, or a portion of, the Plan Area. The site plan approval process will occur as per the Township's site plan review requirements, except that (1) the Redeveloper(s) are exempt from the requirement to provide a Wetlands Analysis and Report and (2) the Fire Protection Systems plan and will-serve letters shall not be required to be submitted for the preliminary site plan application, but are required for the final site plan application.

LEGAL PROVISIONS

Validity of the Plan

If any section, subsection, paragraph, division, subdivision, clause, or provision of this Plan is deemed by a court of competent jurisdiction to be invalid, such adjudication will only apply to the particular section, subsection, paragraph, division, subdivision, clause, or provision in question, and the balance of the Plan will be adjudged valid and effective.

Zoning Map Revisions

Upon final adoption of this Plan by the Township Committee, the Zoning Map of the Township of Raritan is hereby amended and must be revised to show the boundaries of the South Junction Road Redevelopment Area and identify the district as the "South Junction Road Redevelopment Area". All provisions of this Plan apply, and upon final adoption of this Redevelopment Plan by the Township Committee, this Plan will supersede all provisions of the Raritan Zoning Ordinance for the Plan Area. No variance from the requirements herein will be cognizable by the Zoning Board of Adjustment. The Planning Board alone will have the authority to grant deviations from the requirements of this Plan, as provided herein. An authority approving an application pursuant to this Plan shall not require items deemed "cost-generating" as defined by N.J.A.C. 5:93-10.1 et. seq.

Amendment to the South Junction Road Redevelopment Plan

The South Junction Road Redevelopment Plan may be amended from time to time in compliance with the requirements of the Local Redevelopment & Housing Law.

As development occurs within the Area, development priorities and market demands may change. This Plan should have the adaptability to meet the changing needs of market demand, the Township of Raritan, and its citizens. Amendments may be required in order to accommodate these changes.

Variations in Site Plan Design

Modifications from standards which are expressly stated to be "mandatory" under the Land Use Regulations of this Plan, may be approved by the Planning Board only by formal grant of a deviation as provided.

The Planning Board may grant deviations from the regulations contained within this Plan, where, by reason of exceptional narrowness, shallowness, or shape of a specific piece of property, or by reason of exceptional topographic conditions, pre-existing structures, or physical features uniquely affecting a specific piece of property, the strict application of any area, yard, bulk, or design objective or regulation adopted pursuant to this Plan, would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon, the owner of such property. The Planning Board may also grant a

deviation from the regulations contained within this Plan related to a specific piece of property where the purposes of this Plan would be advanced by such deviation from the strict application of the requirements of this Plan, and the benefits of granting the deviation would outweigh any detriments. The Planning Board may grant exceptions or waivers from design standards, from the requirements for site plan or subdivision approval as may be reasonable and within the general purpose and intent of the provisions for site plan review and/or subdivision approval within this Plan, if the literal enforcement of one or more provisions of the Plan is impracticable or would exact undue hardship because of peculiar conditions pertaining to the site. No deviations may be granted under the terms of this section unless such deviations can be granted without resulting in substantial detriment to the public good and will not substantially impair the intent and purpose of this Plan.

An application requesting a deviation from the requirements of this Plan must provide public notice of such application in accordance with the public notice requirements set forth in N.J.S.A. 40:55D-12.a. & b.

No deviations may be granted which will result in permitting:

1. A use or principal structure not permitted in this Plan;
2. An expansion of a non-conforming use; and
3. An increase in height of a principal structure which exceeds by 10 feet or 10% the maximum height permitted in this Plan.

Any party seeking a deviation from this Plan which cannot be granted by the Planning Board as set forth above, may apply to the Governing Body to request an amendment to this Plan.

ACQUISITION PLAN

There is no property acquisition by the Township anticipated by this Plan.

RELOCATION PLAN

Because there is no property acquisition by the Township anticipated by this Plan, no Relocation Plan is necessary.

9. Katharine A. Coffey, Esq. of Day Pitney, LLP presented the application before the Board. Ms. Coffey identified the Property and summarized the application and stated that one variance was requested for an underground basin within the side yard setback.

10. Ms. Coffey stated that the Property is subject to the South Junction Road Redevelopment Plan that was adopted by Ordinance 19-20 on July 16, 2019.

11. The first witness to testify was the Applicant's professional engineer and planner, Brett Skapinetz, P.E., P.P.

12. Utilizing exhibit A-1, Mr. Skapinetz described the Property's location. He stated the Property is currently developed with a single-family home with a couple of out structures toward the rear and side of the home.

13. Mr. Skapinetz testified that there will be a full movement driveway for residents to pull into different parking areas. Additionally, Mr. Skapinetz stated that there will be eight buildings that are three stories and one building that is two-story connected to the community building.

14. Mr. Skapinetz testified that there will be 200 parking spaces and the amount complies with the RSIS.

15. Mr. Skapinetz described the stormwater management system which will be located in the southeastern portion of the property and a subsurface basin.

16. Mr. Skapinetz stated the Applicant intended to provide a uniform and enhanced landscape plan.

17. The lighting plan proposed by the Applicant includes 39 area light fixtures that are decorative and 15 feet high. He stated that the light fixtures will not have a negative impact on the surrounding properties.

18. Mr. Skapinetz testified that the Applicant will have one sign that will be 13.2 square feet. Mr. Skapinetz stated the Applicant wanted to reserve the right to modify the size of the sign. He said the sign will not be larger than 32 square feet.

19. In response to a question from the Board, Mr. Skapinetz described the stormwater management and the series of inlet locations on the Property. He stated the outlet structure is designed for the 100 year storm.

20. Mr. Skapinetz stated the variance was for a five foot setback for the basin where the side yard requirement was for 30 feet. He emphasized that the basin will be underground and not visible.

21. Mr. Skapinetz spoke about the permeability testing and said depending on the

results there may be further testing in other locations.

22. Mr. Skapinetz addressed the trash and recycling component of the Application. He stated there will be three areas designated for trash and recycling that will be picked up on a routine basis by a private company.

23. Addressing snow removal, Mr. Skapinetz stated there will be enough room on each side of the sidewalk to push snow off the walkways. Additionally, snow will be plowed out in front of the parking area and if needed taken off-site.

24. Ms. Coffey indicated that the Applicant will comply with all comments in Mr. Hajjar's memorandum with the exception of the following comments: 14 and 18.

25. In addressing Mr. Hajjar's memorandum, Ms. Coffey addressed comment one and stated that a use variance was not required for a proposed shed because the shed will be used exclusively for storing maintenance equipment to service the multifamily community. Board Attorney John Belardo concurred that a use variance was not required because it was an accessory structure.

26. In response to a question from the Attorney Belardo, Ms. Skapinetz stated the Applicant was seeking a variance for the basin setback under N.J.S.A. 40:55D-70c(2).

27. Addressing comment number 12, Mr. Skapinetz stated that the Applicant will add benches to the tot lot.

28. In response to a question from the Board, Ms. Coffey stated the Applicant will add swings and slides to the tot lot and will address this requirement at the final application stage.

29. Ms. Coffey addressed comment 14 of Mr. Hajjar's memorandum and stated that, to avoid confusion between the proposed development and the existing Willows development located at Block 16.01, Lot 54.01 in the Township of Raritan, the monument sign for the development located at Block 16.01, Lot 54.01 will state the development is called Willows North and the monument sign for the proposed development will state the development is called Willows South.

30. Mr. Skapinetz addressed comment 16 of Mr. Hajjar's memorandum and stated the Applicant will place a strip of concrete to divide the inbound and outbound traffic.

31. Mr. Skapinetz testified that the Applicant will make adjustments to the slope in the back of the buildings to provide a flat area. He further testified that the Property will be a slight cut from a cut/fill perspective; however, based on the flattening out of the area behind the building, the Property can be further balanced from a cut/fill perspective.

32. Mr. Skapinetz explained that if there is any water trapped within the area for the two parking areas there will be grading adjustments so that the water flows to the two inlets.

33. Addressing comment 27, Mr. Skapinetz testified that the current plan did not show trees being planted on top of the basin but he will get confirmation as to whether trees can be planted on top of the basin location and modify plan only if feasible.

34. Mr. Skapinetz addressed comment 28 and described the lighting of the buildings.

35. Mr. Skapinetz testified about the retaining wall and comment 37 of Mr. Hajjar's memorandum. The Applicant is proposing a small retaining wall east of the cul-de-sac; however, Mr. Skapinetz stated the wall may not be built depending on the grading.
