Thanks for the reply. You are diplomatic as most politicians are. However I was confined and still am with this tick virus and every minute from dawn to Midnight is full of speeders. Monitors don't stop them signs don't stop and I am not even sure a serious accident will stop them  
Another issue I have right now is that no one, no one is making sure businesses follow the guidelines set by the Governor. Counter people with no masks, people entering stores with no masks, social distancing ain't happening. It has not been to bad in the township but I fear for the future. Shut down the violators.Hire someone, raise my taxes but protect our health. .

Thank you for your e-mail Mr Mackay. Sorry to hear of your illness and hope you feel better soon.

To my knowledge there have been many patrols on your road and they were also advise of the best times to visit there. I will get a hold of our police department for an update. There also was a traffic study done by the county. There are 188 miles of road to

patrol in the township and try and keep people safe. I will check again but I believe adding speed bumps is not allowed per the State.

As far as fireworks most are illegal except for the ground units since the law was changed. Unfortunately this year because there were no public fireworks shows more people took it upon themselves to have their own. I do agree it is a fire hazard and not safe at all. Unfortunately most of the time before police can be dispatched they displays are normally over.

As you can imagine we have had our hands full this year with moving targets involving recent events including the virus. I will make everyone aware of the issues that still exist.

Regards,

Jeff Kuhl  
Raritan Township NJ Mayor
